Additional Information

Ad hoc before departure	Buying key items	<p>The following may be useful for your trip:</p> <ul style="list-style-type: none"> • Umbrella • lightweight raincoat • proper shoes (for the rainy season) • Insect Repellant • suit & shirts / ties to last your stay • A torch • surge protector (Uganda uses British sockets however; electricity flow may vary) • ear plugs (sometimes the dogs bark early!) • For the ladies an addition of a dress or smart casual outfit. In most cases people do get the out in the evening to socialize. 	
	Buying Currency	<p>Uganda's currency is Shillings (UGX) \$1 = 3,823.38 UGX</p> <p>Note that airport bureaus rarely keep UGX so it's best to organize these in advance. Entebbe airport has a cash point and there are banks in Kampala including ABSA Bank however they may only allow certain brand bank cards.</p>	
s	Making calls	<p>The country code for Uganda is +256 or 000 256.</p> <ul style="list-style-type: none"> • You can carry your own phone as long as it is unlocked to work on any network. • However, we have two mobile phones at the ELOIM offices that you can use to make calls, both local and international <p>Simply load airtime with the help of the administrator and you will be able to make calls anywhere you want.</p>	

Upon arrival

At Entebbe International Airport

In much the same way as any airport be prepared to queue for some time to pass through passport control. It's worth being last on to the transporting bus from the plane to be first off at the doors to the airport!

Your luggage will arrive on the baggage carousel where there are trolleys available. A small shop is also located here. You'll then enter the arrivals hall which is minutes from the car park.

If your flight arrives or departs after dark it is worth having mosquito spray in hand – the airport is on the side of Lake Victoria and attracts a bit of insects!

Local tips!

Greeting people – Ugandan's like to take their time with greetings. Don't be surprised when shaking their hand if they hold it for a length of time (even if both are men) – this is perfectly normal and can look rude if you pull your hand away quickly.

Be prepared to be asked how you are and several other polite questions – it is normal to reciprocate these. Ask questions such as:

- How are you?
- How is your day?
- How is your family?

Transport – Local transport in Kampala can be differentiated into three categories:

- **Boda boda (safe boda, uber boda)** – These are small motorbikes for one or two passengers. Helmets should always be worn! These are a quick way of getting about but account for many hospital cases and riders are known to be reckless as they duck between cars at speed. Ask the rider to drive safely and agree a price before you set off. The office team can advise you of what price seems reasonable. We advise to avoid them as much as possible unless it's really inevitable.
- **Matatu** – mini bus for 18 passengers. Just halt them on the side of the road. They are cheap (under 6000 UGX) and bring you conveniently into Kampala City Centre and other destinations. Just try them to get the experience of public transport in Kampala! However, we advise company of one of our local staff.
- **Special Hire** – our administrator can arrange a taxi for you. Negotiate a price in advance. Be careful when travelling after dark – a special hire is the best option or our (ELOIM) vans but at a cost (300,000 UGX).
